Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 11-12, 34-35, 69 and 79 are rejected under 35 U.S.C. 103(a) as being unpatentable over Eggleston.

Claims 11-12, 34-35, 69, 79 further recite creating 4 distinct websites including a participant website for the participant and selecting from a plurality of templates and artwork. Official Notice is taken that it is old and well known to create websites in order to create an address location on the Internet. Websites having various formats and design. It would have been obvious to a person of ordinary skill in the art at the time of Applicant's invention to have included creating a participant website for the participant in order to keep the information about the particular program in one single location and customize based on preference.
